

## TRG Research Note: July 2010 Commerce Dept Sales Data August 13, 2010

### Highlights

- Reminder: We like to look at the **Commerce Department** data on a comp basis (year-over-year change). Hey, it's government data, so caveat emptor. See attached.
- Big picture, our favorite measure of "what's happening at the mall" (excludes *Motor Vehicles*, *Gasoline*, and *Building Materials*) suggests a +4.2% year-over-year sales improvement in July 2010. This compares to the +4.4% increase in June 2010 and a +4.1% increase in May 2010.

That said, the 2-year run rate continues to decline. Also, July 2009 represented the 'bottom' a year ago. Today's results were a disappointment relative to the lapping of last year's dismal results.

The most compelling category specific storylines in July 2010 were:

- (1) If ***Motor Vehicles & Parts Dealers*** stay on a similar 4-year run rate, autos should report flattish year-over-year sales in August 2010. Is this why GM's CEO departed in sudden fashion this week?
  - (2) ***Electronics & Appliance Stores*** reported an improved growth rate in July 2010 versus June 2010 and the category has sequentially improved in each month since February 2010.
  - (3) In July 2010, 2-year growth rates continued to decelerate.
- Monthly "big picture – what's happening at the mall" year-over-year results in calendar 2009/2010:
    - January 2009 -1.4% (+1.7% 2-year)
    - February 2009 -0.3% (+1.8% 2-year)
    - March 2009 -2.1% (-0.1% 2-year)
    - April 2009 -2.9% (+0.9% 2-year)
    - May 2009 -3.2% (+0.4% 2-year)
    - June 2009 -3.6% (+0.3% 2-year)
    - July 2009 -3.8% (-0.4% 2-year)
    - August 2009 -2.3% (+0.5% 2-year)
    - September 2009 -0.4% (+0.7% 2-year)
    - October 2009 +0.7% (+0.8% 2-year)
    - November 2009 +1.6% (+0.3% 2-year)
    - December 2009 +3.5% (+0.5% 2-year)
    - January 2010 +2.8% (+1.3% 2-year)
    - February 2010 +3.7% (+3.4% 2-year)
    - March 2010 +5.4% (+3.2% 2-year)
    - April 2010 +4.5% (+1.5% 2-year)
    - May 2010 +4.1% (+0.8% 2-year)
    - June 2010 +4.4% (+0.7% 2-year)
    - July 2010 +4.2% (+0.3% 2-year)

**February/March 2010 generated anomalous 2-year growth rates. Was this a mirage?**

**2-year growth rates have retreated in each month since March 2010.**

## Highlights (con't)

- Below, we show year-over-year results in Q1 2009 (Jan-Mar), Q2 2009 (Apr-Jun), Q3 2009 (Jul-Sep), Q4 2009 (Oct – Dec), Q1 2010 (Jan – Mar), and Q2 2010 (Apr – Jun).

Most categories improved in Q1 2010 relative to Q4 2009 (excluding *Health & Personal Care*). But, the results in Q2 2010 relative to Q1 2010 were mixed.

<u>Category</u>	Q1 2009 'Comp Sales'	Q2 2009 'Comp Sales'	Q3 2009 'Comp Sales'	Q4 2009 'Comp Sales'	Q1 2010 'Comp Sales'	Q2 2010 'Comp Sales'

2-year run rates have worsened since February 2010.

TRG's favorite measure of retail sales. Here we exclude motor vehicles, gas stations and building materials to more closely analyze what's happening at the mall.

Notice that 'comps' finally declined on a year-over-year basis in November 2008 and were negative for 11 months before turning positive again in October 2009.

**Furniture & Home Furnishing Stores:** After reporting 32 straight months of year-over-year declines through Jan 2010, six straight months of year-over-year improvement.

**Department & Discount Stores:** Had a tough December 2009 on a 2-year run rate basis, but rebounded nicely in Q1 2010. Much easier year-over-year comparisons in Q2/Q3 2010. Yet, the 2-year run rate continues to worsen.

\*Amounts above in billions. Data adjusted for seasonal variations, holiday and trading day differences, but not for price changes.

Clothing & Clothing Accessory Stores - Comparisons will be more difficult to anniversary beginning in August.

Electronics & Appliance Stores - 19 straight months of year-over-year declines through February 2010. While positive year-over-year results in March/April/May 2010, sales on a 2-year run rate basis worsened in each of the three months.

\*Amounts above in billions. Data adjusted for seasonal variations, holiday and trading day differences, but not for price changes.

**Food Services & Drinking Places** - Fairly impressive year-over-year rebound in December 2009 and January 2010. Dramatic upsurge in February 2010 through May 2010. Back to anemic growth in June/July 2010.

**Building Material & Equipment Supplies Dealers** - Prior to March 2010, 42 months with year-over-year declines. Dramatic improvement March through May 2010, but why the material drop-off in May - July versus April?

\*Amounts above in billions. Data adjusted for seasonal variations, holiday and trading day differences, but not for price changes.

23 straight months of year-over-year declines for **Motor Vehicles & Parts Dealers**. Finally returns to positive territory in October 2009. Will the category be able to continue to deliver higher YOY growth beginning in October 2010? August 2010 looks like a particularly daunting 3-year comparison.
